## 40mm Light Anti-tank Rocket Launcher - Commandos BRY02

Light Anti-tank Rocket Launcher is a reliable anti-tank weapon. It's also used to treat with self-propelled artillery mounts and other armoured vehicles. It's used to destroy manpower in open, hasty shelters and in bunkers. It uses large-caliber (85 mm) anti-tank rockets with hollow-charge action and caliber (40 mm) high-explosive rockets which increase the armour piercing. It's most efficient to fire on armoured targets at blank point range- 330 m, and on manpower - by fragmentation rocket up to 150 m. It's equipped with optical sight for direct aiming firing.
