122 mm Howitzer D-30 GHY02

It's towed for direct firing at movable and stationary targets by optical sight, its panoramic telescope and the range quadrant. It's not only used for firing from masked position, but also for direct firing.

During the night, sighting devices are illuminated by means of the instrument light and autonomous tritium illumination. For firing with 122 mm howitzer the semi-fixed rounds with high-explosive shell, illumination shell and smoke shell with reduced, changeable and full propelling charge, at range up to 17km, are used.

Technical Specifications :

Caliber:	122 mm
Maximum range	15300 m
Elevation angle	-7 to +70°
Rotation angle	360°
Number of charges	7
Total weight	3500 kg
